A PROMISE

Mary Ann Van Hoof (seer, stigmatist, and mystic) was given the following promise before she was taken to her heavenly reward on March 18, 1984):

“When we take your sister home, I will be with you on all the Anniversary Days to bless these grounds. You will not see Me or the celestials with Me. I will not abandon you, unless you abandon Me. Is that understood?”

OUR PLEDGE

To stand firmly for God and for Country;

To bring the truth to all people;

To bring peace and unity between home, school and church;

Thus bringing everlasting peace to the nation.

Pilgrims Visiting the Shrine

Many pilgrims that visit the Shrine each year and walk the grounds comment on how peaceful it is. There are fourteen (14) grottos to view and to pray at. Guides are available in the Information Building from 10:00 A.M. to 4:00 P.M. seven (7) days a week to tell about the Apparitions and answer questions. Free literature is available; plus, Rosaries, Chaplets, and books to purchase. Group tours are provided. Call ahead to make arrangements.

The Blessed Mother, as well as many Saints, have visited these grounds since November 1949 giving Messages to Mary Ann Van Hoof. This is holy ground, as many Saints walk these grounds every day as promised.

Pilgrims are asked to dress modestly when visiting the Shrine. Clothing should conceal, not reveal. Wrap-around skirts are available at the Information Building.

AS THE WOMEN GO, SO GOES THE NATION!

SIGN AT ENTRANCE

THESE ARE SACRED GROUNDS

The Mother of God graced these grounds with Her presence for a period of thirty-four years. She promised to continue to visit and bless these premises on the following days each year: April 7, May 28, May 29, May 30, June 4, June 16, August 15, October 7 and November 12.

Are you dressed properly? Our Blessed Mother has said that many fashions are displeasing to Our Lord. She is the model of modesty.

Clothing should conceal not reveal. Both men and women should observe the virtue of modesty. We are given the choice to follow Christian standards of modesty or follow the pagan standards of immorality. History reveals that when the morals of a nation collapse, the nation collapses!

For women visitors wearing shorts or slacks, wrap around skirts are available. As the women go, so goes the nation!

MODESTY IS THE GEM OF ALL VIRTUES

A promise made by the Blessed Virgin Mary previous to Mary Ann Van Hoof's death.

"When we take your sister home, I will be with you on all the Anniversary Days to bless these grounds. You will not see Me or the Celestials with Me. I will not abandon you unless you abandon Me. Is that understood?"

OUR LADY'S MESSAGES

The Revelations and Messages shared at the Queen of the Holy Rosary, Mediatrix of Peace Shrine came from the Blessed Mother, or one of the Saints who assisted Her, such as; St. Therese “The Little Flower”, St. Francis, St. Joan of Arc and others.

Pilgrims who have visited the Shrine on Anniversary Days when the Revelations were given have seen Mary Ann in a state of ecstasy, noticing that she was not conscious of anything or anyone around her as she spoke. These messages were taken down on a tape recorder and in long hand by at least two people. Some messages were repeated word for word as given by the Blessed Mother; however, in most cases Mary Ann was inspired to speak using her own language, grammar and expressions. Many messages were also given during suffering periods in her home, especially during Advent and Lent.

In a more general sense, the Revelations and Messages came from the Triumphant Church in Heaven, who used the voice of Mary Ann Van Hoof as a human transmitting device or instrument.

HEAVEN'S MESSAGES IN REVIEW

EUTHANASIA

Our Holy Mother's Message to Mary Ann Van Hoof on March 16, 1973 spoke about the push for legalized Euthanasia. Many people fear that the Affordable Health Care Act will encourage this practice, as Doctors mentor their patients in end-of-life choices. This is a grave concern in the United States and has been legalized in other countries around the globe. Christians need to vehemently oppose such legislation, and pray fervently that such laws are not enacted in every state.

The message given on that date is as follows: *“Why isn't there more effort made to stop the proposed new law? Euthanasia has started in many States. Why are you asleep? It is true; many an old soul does not know his own name, or does not know what he is doing. But, yet that is so, because he doesn't know, is helping you that does know. Regardless of what you think, that soul is suffering and in his childish way helps you. They are victims that God has left here. He could have taken them while all their faculties were all together; but, He leaves them here as a suffering for the loved ones they left behind. For when they leave as a child, their loved ones that truly loved them are given a cross that many are unwilling to carry. They rather put them away, or have them stowed away and don't even take time to go and visit them. ‘What is the use, they didn't know me anyhow?’ It's very nice to go and see them; for, a new-born doesn't know you either, until it learns. But remember those were*

your parents that cared; and, tenderly cared for you, that loved you, that took care of you, that provided for you. And now you want to forget them? That they are a bother? They interfere with your family life? Stop and think. Is that right? Some day you will be in their shoes, and you will be one of those souls. Unless, you leave the enemy and those that do not want to be bothered, that have no time for the old, the poor; unless you follow them, then you will give them a pill or an injection and in a few hours they are gone. They will be out of your way and you won't have to bother. You won't have to sacrifice to help pay for their room and board. No, you can just forget them. You might shed a false tear because they are gone. Is that what some of you are planning? I'm not speaking of those in this room. None of you have those kinds of thoughts. But I am speaking of the populace, that has the elderly in homes, stowed away somewhere, forgotten. Some are anxious for laws to pass. They cannot see why they should suffer. So you are God. You are placing yourself in Thy Lord and God's place; and, you are going to tell others what to do and what not to do. We have too many false gods in this world that are setting themselves up as who is to live and who will not. Last week we spoke of the unborn, today we are speaking of the 'too old'. The 'too old' that are in the way. Yes, they do not know anything, many of them, but some do recall; and, they look at their children with broken hearts. And, they rather not speak, or even say, because they are treated like outcasts. They are too old to be bothered with. Yes, there are a number of these. If you let the trend go now, in the next three years there will not be many left of those aged. They will be put to rest, before God chose to take them home. They will put their own gods, the false gods, in power. Is that what you want? You have a name for it. Yes, just erase them out of life. Be the gods, the false gods. Oh, you are a human being. God created you, but you do not believe that. You only have animal thoughts of how you were created, but remember God created you. No matter how you squirm out of it or think you can, it is Almighty God, God the Father that placed you here on earth; and, it is up to Him how long you live on this earth or how short your period will be. It is His choice, not yours."

**"Be cheerful. Jesus will take care of everything.
Let us trust in Jesus and Our Heavenly Mother;
and everything will work out well."**

**"My past, O Lord, to Your mercy.
My present, to Your love.
My future, to Your providence."

SHRINE NEWS

Volunteers

Volunteers continue to play an important part at the Shrine. Some generous families offer their vacation time, others have been faithful in dedicating time on weekends for Our Lady. We start about 9:00 A.M., break for lunch prepared by our kind ladies, and then work until about 5:00 P.M. It is a labor of love for Our Blessed Mother, and the workers enjoy the friendly time spent working together.

Volunteers may help with many projects. See below some of the projects. Progress on the **House of Prayer** is of prime interest to many of our workers. **Besides the construction work**, there is also the painting, planting, and weeding of the flowerbeds, cutting lawns, cleaning the grottos. **Electrical** - to repair lights, repair underground wiring, update sound system. **Carpenter** - Repair and replaced entrance doors and windows. **General help** - install fence along the sidewalk to the sacred spot. **Plumber** - install dishwasher in the school kitchen.

House of Prayer News

It has been a long winter in Wisconsin. Work on the House of Prayer was halted when the heavy snows started coming. This work will soon resume with the setting up of support shoring and the building of forms for the fourth concrete pour. Volunteers and carpenters are needed for this. Experienced block layers are also needed to finish putting up the block walls. Building of the House Of Prayer is a most urgent request of Our Blessed Mother. She asked that all our work on the Shrine grounds be done with volunteer labor as much as possible. When professional help is needed, donated funds that come in are used to hire them. The present phase of construction is quite costly; so, as funds allow us, work will continue where we left off last fall. Please continue to pray for our success! **God Bless our VOLUNTEERS.**

PALM CROSSES

Perhaps there has never been a time in history, that the protection of the Cross of Christ was more needed to subdue His enemies, than in these our present days. We know the wicked spirits dread and flee from this, our Sign of Redemption. All true priests have the power to bless, either the Crucifix or the Palm Crosses.

When blest, the palms made in the form of crosses, even though as small as 1 1/2 to 2 inches, are a tremendous protection. So, they should be put in a small glass or plastic container, and placed on the four corners of your land and your house.

This idea for protection actually goes back to the Apocalypse, where St. John warns that the evil forces are permitted to molest us. The official blessing for Palm Crosses is given in the Large Roman Ritual. The Palm that you have saved from other years, or just obtained this year on "Palm Sunday", can be used for this purpose. You could also take the Palm Crosses to a priest on May 3rd. the "Feast of the Finding of the Holy Cross", for the extra blessing from the Large Roman Ritual.

IF YOU WISH - Blessed Sacramental Packets from the Shrine, containing a Palm Cross, may be used in place of your own Palm Crosses. They can be ordered as:

#876 Blessed Sacramental Packet (Donation appreciated)

Contents: Green Scapular, Blessed Salt, Miraculous Medal, St. Benedict Medal, and a Blessed Palm Cross.

(The medal of St. Benedict is the most highly indulgenced medal.)

Queen of the Holy Rosary School

Queen of the Holy Rosary School is in dire need of help for the 2014-2015 school year. Teachers are needed for grades 7 & 8. History and English teachers are also needed for the High School.

Our teachers are very devoted to serving Our Lord and Our Blessed Mother. They are pleased to volunteer or serve for a minimum salary.

There is also help needed for repairs, cleaning, or painting. Donations are always appreciated to help some families who have financial difficulties.

You can contact Queen of the Holy Rosary School at 608-565-2341 or via email @ qhr@tds.net.

Please keep the school in your prayers. The school operates solely on tuition and donations.

DIAMOND STAR RESEARCH NOTES

The Reality of Geoengineering

Author's Note: Heaven, here at Necedah, warned us years ago of the coming Earth changes: Feb. 26, 1957; Feb. 28, 1969; March 28, 1969; April 4, 1969. In the April 4, 1969 Message and others, Heaven indicated that man is manipulating the forces of nature (weather, earthquakes, etc.) to cause much harm to the Earth. *“(God) will not hold back, but destruction will be befalling; be it man-made, or be it from the elements. Man has made enough powerful material to cause devastation, to destroy much earth. Only God can control these things.”* The last sentence, no doubt, refers to the fact that man may find his control of nature losing out; with the elements going out of control due to other cosmic forces in play. Though man has induced many of the Earth changes we now see, the overall greater Earth changes are caused by a greater cosmic force under God's control. This, man has not reckoned with. (This article is an extract from a larger article: *Transition of the Ages: Earth Changes and Climate Change*, found on our website: www.diamondstarlightbeacon.com .)

It is important to realize just what geoengineering is and what it involves.

Geoengineering is the deliberate altering of the Earth's climate via technology which employs HAARP pulsed energy waves, chemtrails (the seeding of the atmosphere with various toxic particulates), ice nucleation, magnetic manipulation of the ionosphere, and other means of weather modification. The complete altering of the Earth's environment is not only now possible, but is threatening all life on this planet. Climate modification, earthquake generation, tsunami or tidal wave generation and direction (i.e. the 2004 Indonesia earthquake and tsunami; the 2010 Haiti earthquake, and the 2011 Japan earthquake and tsunami), as well as behavior control, are now a reality via magnetic manipulation and artificial heating of the ionosphere. These means of planetary warfare were predicted years ago by geophysicist Dr. Gordon J. F. MacDonald. He predicted these means of planetary warfare via the use of weather and seismic manipulation would be developed by the 21st Century.

“The key to geophysical warfare is the identification of the environmental instabilities to which the addition of a small amount of energy would release vastly greater amounts of energy.” (As quoted in *Planetary Weapons and Military Weather Modification: Chemtrails, Atmospheric Geoengineering and Environmental Warfare – The Rise Earth website*).

We note in this statement the reference to “the identification of environmental instabilities” which they use to control climate. Their purpose is to de-stabilize the natural balance of weather systems, as well as all natural systems, in their “playing god”; and, in their lust for power and control of all humanity. By adding just the right “small amount of energy” to further destabilize what is already somewhat unstable, they are causing the Earth’s natural environmental systems to become extremely out of balance. The Powers-That-Be are trying an artificial man-made environment. (There is much more to this than we can cover here. Another article will be needed to cover this specific aspect.)

Furthermore, “the modern weather modification program, at least in the U.S., is over 70 years old. Public service announcements printed in newspapers back in the 1960s warned of government intention to modify the weather.

“Life Magazine, back in the 50s and 60s, continually covered US weather modification programs, including Project Stormfury, which redirected and reduced hurricane intensity from 1962 to 1963. The IPCC’s (Intergovernmental Panel on Climate Change) continuing and absolute silence on such programs is deafening.

*“With insider knowledge, a chapter in the 1968 book, **Unless Peace Comes: A Scientific Forecast of New Weapons**, predicts the development of technologies that will use the planet itself as a weapon. The chapter, **‘How to Wreck the Environment,’** was penned by geophysicist and member of President Johnson’s Science Advisory Committee, **Dr. Gordon J. F. MacDonald...**”* You will note this is the same man who made the geophysical warfare statement above, whose intent it was to create instabilities in the natural environment.

No doubt Senator Claiborne Pell, who chaired a Senate subcommittee, knew of these weather warfare, climate altering, seismic inducing planetary weapons technologies; for he warned in 1976: *“We need a treaty now... before the military leaders of the world start directing storms, manipulating climates, and inducing earthquakes against their enemies.”*

What was warned about by Senator Pell is now a reality; and, the enemies spoken of now appears to us – especially Christians, Nationalists, or anyone who dares to resist and expose the New World Order for what it really is: a madman’s plan at “playing god” to control the world for reasons of wealth and power.

As this environmental planetary weapons technology advanced with the development of geoengineered chemtrails in the 1990s, American Secretary of Defense, William S. Cohen warned in April, 1997: *“Others are engaging even in an eco type of terrorism; whereby, they can alter the climate, set off earthquakes or volcanoes remotely, through the use of electromagnetic waves.”*

In the same year of 1997 there was a document written, where Dr. Edward Teller actually states that the intention of geoengineering is to

shield the Earth from the increasing intensity of the Sun's rays by using particulates, in other words, chemtrails to alter the climate. (Two years earlier in the summer of 1995, this author had a retired Naval officer, who we refer to as "John", tell us the U.S. government and Russia had a joint program to artificially induce earthquakes and tsunamis by remote control.)

There are of course, several reasons for geoengineering the Earth's environment. This is covered in another article on our website called, *Geoengineering, HAARP, and Chemtrails*. We are now updating this research which includes basic information from the research of solar expert and climatologist, Dane Wigington.

Notes on Dane Wigington's Geoengineering Research. (Website: www.GeoengineeringWatch.org). (Most notes with few exceptions are taken from the video: *Climate Engineering, Weather Warfare and the Collapse of Civilization* available on the above website.)

1. Chemtrail toxins include: Aluminum oxides, Barium salts and titanates, desiccated human red blood cells and white blood cells, lead, mercury, synthetic polymers, nano-Aluminum coated fiberglass, radioactive Cesium, radioactive Thorium, bio-nano particles, and a whole lot more. (Note: Nano particles are extremely dangerous because they are so tiny they can pass through tissue membranes directly into the bloodstream and into the brain where they cause dementia, alzhiemers, autism, and more.

2. \$8.5 trillion has not been accounted for in the U.S. financial budget since 1996. Note that this is just one year prior to Dr. Edward Teller's official paper announcing the intention of launching geoengineering programs. No doubt, much of these unaccounted for funds is being used for that purpose.

3. One in three older adults die with dementia. (This is caused by aluminum and other geoengineered toxins lodging in the brain)

4. Geoengineering is part of the Agenda 21 program of relocating people into city and urban areas, and the eugenics and depopulation programs.

5. One in five people are now getting Autism. Heavy metals (in nanoparticulate form) are increasingly causing endocrine system disruption.

6. NOAA (National Oceanic and Atmospheric Administration) scientists are afraid to speak out about geoengineering for fear of retaliation from the Powers-That-Be. As one scientist stated, "*We're scared as hell, but we have no First Amendment rights!*"

7. In recent years there has been a 50% decline in ocean plankton, due to the acidification of ocean waters. No plankton means no fish. Plankton is a basic form of life in the food chain.

8. Bee populations (due to colony collapse disorder, etc.) have dropped as much as 50%. Albert Einstein warned long ago that, four years after the

bees disappear, the people would disappear. The alarming drop in bee (especially honey bee) populations has raised concerns over adequate pollination of crops.

9. Russian scholars and scientists have warned of U.S. climate change weapons. (It appears all major nations of the world are engaged in climate change weapons.)

10. Geoengineering can cause mega-storms, mega-floods, mega-droughts, and other weather extremes, as well as seismic disturbances to control and subjugate targeted nations of concern to the New World Order.

11. Dane Wigington notes that the term “chemtrail conspiracy theory” leads to the discrediting of geoengineering. (If someone posts a comment on a mainstream website, correcting the definition of geoengineering, the corrected definition is denied and deleted.) The term climate engineering leads to science and credibility. (The mainstream media avoids using the correct terms.)

12. Global warming versus climate change: The New World Order elite have changed their terminology to cover the greater weather extremes now occurring. They also now altered their agenda. The man-caused global warming scam served its purpose: to use as an environmental control mechanism to further enslave the populace. (Diamond Star Note: Global cooling is now being promoted because they fear the real global warming caused by galactic and solar system changes that are now taking place – hint: the Sun is getting brighter and hotter; and, they are masking this with a geoengineered cooling of the planet. They are now using “global cooling” propaganda to fool the public, and to a certain extent this is working.)

13. The population of the world’s pelagic fish (Mackerel, Tuna, etc.) is down 95%. Massive fish die-offs are increasing all across the globe. (Note: It appears both natural causes and man’s geoengineering of the environment are both to blame.)

14. The world is losing various species of animal life through extinction. Wigington reports that 200 species are going extinct per day. This is 10,000 times the average. (Diamond Star Research Note: It appears from our research that both natural and man-induced causes are involved in this.)

15. Rising CO₂ and methane levels are now occurring. Methane release in the ocean waters is causing an overall general acidification.

16. The planet is warming overall (as are other planets in our solar system) despite the media claim that it is cooling. (Diamond Star Research Note: This warming Dane Wigington attributes mostly to geoengineering. This however is only partly true. The main general cause is the Sun entering into its transition phase which is now occurring. Though there is a general warming of the planet, there is a greater destabilization of the planet’s environment and weather systems due to both natural cosmic forces and man’s geoengineering.)

17. Scientists say the now occurring sea level rise is unstoppable. A 100 foot sea level rise is expected in the coming decades. Proof of sea level rise

and land incursions around the globe is becoming more and more evident with sea level rise seen in the Fiji Islands where the government is relocating the most vulnerable seaside communities. Land incursions and sea level rise have also been reported in Viet Nam, Japan, and the Philippines, as well as other places.

18. Geoengineering is destroying the ozone layer allowing greater penetration of ultra violet rays. UV-B is increasingly penetrating through down to the oceans. Normally about 95% of all ultra violet radiation is UV-A. There has been a 1200% increase in UV-B (more dangerous than UV-A); and, it is now penetrating the atmosphere. The most dangerous of all ultra violet radiation is the form UV-C which is now penetrating the atmosphere. Scientists are threatened if they tell the extent of ozone depletion and ultra violet ray penetration of the atmosphere.

19. Methane release, a natural process, is now being accelerated because of geoengineering. The normal methane release is about 700 parts per billion. It is now spiking to 2500 parts per billion. Science is being censored on giving any data on this, as well as many other threats. Science is a completely controlled system.

20. Birds falling from the sky, and other mass animal-death events, are caused most likely by HAARP technology, geoengineering, and chemtrails, as well as changes and disruptions in the magnetic field of the Earth due to natural cosmic forces including the Sun.

21. Ice nucleation (where chemicalized snow forms at even above freezing temperatures) and snowstorms are intensified especially in the winter of 2013-14. NASA has a patent on ice nucleation. In October, 2013, 100,000 cattle in South Dakota died due to an ice nucleated mega-snowstorm. (Ice nucleated snow is usually very heavy and cement-like, such as in this chemically nucleated snow, and can cause an endothermic reaction to Aluminum and Barium. It contains and drops temperatures 100 degrees F. even if the surrounding temperatures are higher.) Tests done on Mount Shasta snow found 6,000 parts per billion of Aluminum. 70 pound “ice boulders” have been found in the last couple of years washing up on the shores of Lake Michigan. This is not normal. This is a result of ice nucleation.

22. Environmentalist activist groups such as the Sierra Club, Greenpeace, etc. whom you would expect to be “up in arms” against the damage being done by geoengineering, are instead strangely silent on the issue and are ignoring it. While the media has been focusing on the polar vortex, California has had their worst drought in their history. Temperatures are at least 15 to 20 degrees above normal with some record highs being set. Abnormally dry conditions combined with unusually high temperatures for the winter season (a real lack of winter) are causing an outbreak of wildfires normally not heard of this time of year. Brazil and Australia are also “frying and drying” with record breaking temperatures and drought conditions.

23. The public is now being conditioned with propaganda that a chemtrail sky is “normal.” NASA even has a school program to indoctrinate children that chemtrails are normal.

24. There is a chemtrail program that uses aircraft to spray metal oxides into the upper atmosphere. HAARP energy waves are directed at these particles to artificially heat the atmosphere to over 100 degrees F. preventing moisture to form. The spraying of particulates in the upper atmosphere has another affect: to deflect sunlight away from the Earth. It’s part of Sun Radiation Management (SRM) and atmospheric dimming.

So there you have it – at least a glimpse of this diabolical program to change the climate and produce an artificial environment. It is **extremely important** that people become aware of and understand the chemtrail scourge, as well as the broader geoengineering program. It affects your health, your environment, and even threatens your very existence as a normal human being that God intended. (Transhumanism is another aspect of this geoengineering program we cannot cover here). This threat is very real and threatens you 24/7 all 365 days of every year. This is a global pandemic that must be realized by the average person if he cares about his health, his family, and his future. It’s about time to get educated on these evils! A good place to start is this website, and the foremost website exposing geoengineering: **www.geoengineeringwatch.org**. Also search for the broader agenda, including transhumanism, in Project Blue Beam at : **www.stopthecrime.com**

FOOD FOR THE SOUL

CONFORMITY TO GOD'S WILL

St. Alphonsus de Ligouri says, "Perfection is founded entirely on the love of God; and, perfect love of God means the complete union of our will with God's. It follows then, that the more we unite our will with the Divine Will, the greater will be our love of God."

"The greatest glory we can give to God is to do His will in everything. Our Lord frequently declared that He had come on earth not to do His own will, but solely that of His Father. To do God's will was the goal upon which the saints constantly fixed their gaze. They were fully persuaded that in this consists the entire perfection of the soul."

"The essence of perfection is to embrace the will of God in all things, prosperous or adverse. In prosperity, even sinners find it easy to unite themselves to the Divine Will; but, it takes saints to unite themselves to God's will when things go wrong and are painful to self-love. We must unite ourselves to God's will not only in things that come directly from His hands, but also in those things we suffer from man – for instance: contempt, injustice, loss of reputation, loss of temporal goods, and all kinds of persecution. On these occasions we must remember God does not will the sin, He does will our humiliation, our poverty, or our mortification, as the case may be. We must not therefore consider the afflictions that come upon us as happening by chance or solely from the malice of men. We should be convinced that what happens, happens by the will of God."

"Acting according to this pattern, one not only becomes holy, but also enjoys perpetual serenity in this life. Those who love God are always happy, because their whole happiness is to fulfill, even in adversity, the will of God. Afflictions do not mar their serenity, because by accepting misfortune, they know they give pleasure to their beloved Lord. This is the happy lot of the man who wills only what God wills; because, everything that happens, save sin, happens through the will of God."

"This is the beautiful freedom of the sons of God; and, it is worth vastly more than all the rank and distinction of blood and birth, more than all the kingdoms in the world. This is the abiding peace which, in the experience of the saints, surpasses all understanding."

CONSTANT VIGIL OF PRAYER

Could You Not Watch One Hour With Me? Our Lord asked this of His sleeping Apostles in the Garden of Gethsemane. Many people throughout the United States have answered the call to take an hour of prayer by starting Perpetual Adoration programs in front of the Blessed Sacrament. Many areas, however, do not have Perpetual Adoration or do not have enough people to fill the hours.

Our Blessed Mother at Necedah has asked for an hour of prayer each week, in addition to our Sunday Church obligation, through a Constant Vigil of Prayer Program. This hour could be taken at home, at church, or anywhere, and could be filled by any type of prayer or spiritual reading. The general intention of this Constant Vigil of Prayer is to save America from destruction by the evil forces.

Please join us by sending your participation information.

“Let’s Save America By A Constant Vigil of Prayer”

(Continued from page 20) **Mary Ann’s Story**

One of the first Priests to come out was Father Stanley. He came with Father Lengowski to the Spot, and asked a few questions which I answered. The rest of the week was quiet.

I wrote to Fred’s brother, George, about the three days; and, told him to keep quiet. But it seems Our Lady wished otherwise. For the results were 28 people on Trinity Sunday.

Mary Ann's Story

MAY 30, 1950

On May 30th She smiled as I approached Her. I always pray the "Hail Mary", as I walk towards Her and after I kneel in front of Her.

She said: *"Don't worry about not being able to fulfill your penance. Pray for your Priest. He's had a painful time. Pray so this Community wakes up to God. Pray for help for your Priest. He is a very hard working Priest. He is devoted to his work, and has faith in God."*

Our Lady told me, *"Your Pastor was afraid he would make a fool of himself, so he was going to visit some friends instead. He has suffered much pain. Also prayed much. He will be with you, My Child. You, My Child, must pray much for him. He needs your prayers badly."* She told me something that I shall keep sealed in my heart forever. It is through this that I understand him much better. It makes one know his struggles are great, and so hard to bear. But with all our prayers, and with his faith and love for Our Blessed Mother, I know Father will win. I also know that for both of us, it will mean much suffering through all this - besides all the obstacles in our path.

"Remember, My Child, that the time is coming, sorrow and slaughter of My children will be worse than ever in history. It grieves Me to see innocent children, the sick and poor, destroyed because of greed and the desire for power by a few Nation's leaders. That is why I say Pray, Pray. Give this Message to the people. For prayers only will save the destruction of this world."

Then She asked me to mark the Place, which is Sacred. She said that we should pray there daily; and, that anyone else may pray there. Then She asked me to mark the Spot; and, the only thing I could find was some wood chips. I marked the place to my left first (about two feet or more north of the fence); and, then to the right of me. That gave the width. I first marked it about four feet long. "No," She said, *"Just a little more over. That is it."* That is how it is still marked at this writing.

She told me to tell the Priest, exactly how She looked, and to have a Statue made of Her to put on the place of Apparition; and, a large Crucifix to put on the Village Bluff. This was so strange. I always felt ashamed, unclean, so unworthy; but, as She said, I was to describe Her to my Pastor.

It seemed my eyes traveled over Her without control of myself. Just for a minute, I wondered how big She was. Then She took my Rosary, and touched it again with the Crucifix of Her Rosary. She told me I was thinking of cutting my hair short. She told me to leave it just as it was. Then She placed Her hand on my head. She said I was worried and wondering why She chose me. She said I felt I was not good enough. She then told me why She chose me. After touching my Rosary, She sure surprised me about my hair. Yes, I sure had

planned on cutting it and getting a permanent, as my hair is long and unmanageable. But since She said this, I have accepted it. I don't know what Her reason might be. Could it be that God gave women long hair, that we should take pride in it? I really don't know the reason. She placed Her hand on my head so tenderly. Oh, the feeling of a great Love for Her comes over one. It is just about impossible to describe it.

Oh, such beautiful hands! And to think She touched me. It still makes me tremble. But the strangest of all is, one does nothing at the moment. I only waited for Her to go on with Her Message. One has no control of oneself. She said I was a very unhappy child, always abused, misunderstood. She said, *"You took punishment for others to protect them. You received no love which you longed for in your home. You always worked hard and were honest to your family. Yes, you committed sins, but you have been forgiven for them long ago. At the time of your sins your surroundings were more to blame than you."*

"You faced death four times. The Sister who took care of you in the hospital, she is with Us now. You felt very close to her during her devotion, and her tireless effort and vigils to keep you alive."

And this kind Sister stood by my bedside all night; watching me; saying kind words to me. Such kindness I had never experienced before. May God Bless her.

"From childhood on until today, the Stations of the Cross have made your heart heavy; and, you shed tears because My Son's Suffering grieved you. This is why I chose you, My Child."

"My Child, on Trinity Sunday I would like you to kneel before My altar all during Mass. Ask your Priest for permission first; and, he will tell you where to kneel. I'll be with you then. Bless you, My Child."

This night I again stayed up to write the Message, then retired to bed. The next day, May 31st, and still no word from Father. Towards noon, Father and his Mother came out. Mother Lengowski had brought out a big bouquet of flowers to put on the Spot. First I told Father my experience; and, then he dressed himself for Blessing of the Spot. Then all of us said a few prayers.

After that I told Father of the literature a person had left me; but, that I didn't have time to read it. I told him also that there was a Lipa and Fatima. He said he had never heard of Lipa, so I sent Joanne to get it and I gave it to him. He said he would like to read it, so he kept it.

I also told Father that Our Lady asked me to kneel before Her Statue in Church; and, that I was to ask him and he'd tell me where to kneel. Yes, he said he would put a chair for me near the Communion rail. That is where I could sit. After that Father left for home.

I started my Penance of 15 days fast (Mass and Communion of course every day) on June 1st, for that was the first day Father was able to say Mass after Sunday, May 28th. **(Continued on page 18)**

SAINTS IN REVIEW

St. Ignatius of Loyola

Ignatius was born on October 27, 1491 in the family castle at Guipuzcoa in Northern Spain. He was the youngest of 13 children. At the age of 16 he became a page and was brought up in the household of Juan Velasquez de Cuellar, contador mayor to King Ferdinand and Queen Isabella. This is where he saw and enjoyed the “pleasures of life”, and was consumed with the desire of winning glory.

In 1517 Velasquez died and Ignatius took service in the army. The turning-point of his life came in 1521 when defending the citadel of Pampeluna against a French take-over, when a cannon ball injured one leg and broke the knee in the other. They lost to the French, but the French admired his heroism and took him to France to care for his wounds. The efforts proved to be very painful and left him with one leg shorter than the other. During his long recovery period he asked for his favorite books on romances of chivalry, but could only get books on the lives of Christ and the Saints. Gradually it dawned on him that his former ideas were of the world, and worldly thoughts began to lose their hold while heavenly ones grew clearer and dearer.

When Ignatius left Loyola he had no definite plans, except that he wished to rival what all the saints had done in the way of penance. His first task was to make a general confession at the famous sanctuary of Montserrat; where, after three days of self-examination of his sins, he confessed, gave to the poor the rich clothes he was wearing, and put on a full-length garment of sack-cloth. Next morning after Communion on the Feast of the Annunciation in 1522, he left the sanctuary.

He learned of a cavern near the neighboring town of Manresa where he retired for prayer, penance, and meditation while living on alms. But, instead of obtaining greater peace, he was consumed with the most troublesome worries about his sins of the past. At one point it almost drove him to committing suicide, until God granted him the wonderful graces and visions needed to find the peace that he desired. During this time he began to make notes of his spiritual experiences, which later grew into his famous book of “The Spiritual Exercises”.

In an attempt to learn how to conform himself perfectly to Christ’s life, he voyaged to the Holy Land; but, he learned the hard way – through poverty, sickness, exposure, fatigue, starvation, dangers of shipwreck, prisons, blows, and contradictions.

He left Jerusalem uncertain of his future, but when returning to Barcelona, Spain in 1524 he eventually decided to study in order to be of greater help to others. Because of illnesses and many troubles along the way, he spent a total of eleven years of studies in Spain and in Paris, so when ill health caused him to leave Paris in 1535 he had completed all but a doctorate degree. Ignatius became thoroughly versed in the science of education; and, learned by experience, how the life of prayer and penance might be combined with that of teaching and study.

Ignatius' first two groups of followers were devoted to him, but because of the trials and persecutions they fell away. The third group that included (St.) Peter Faber; (St.) Francis Xavier; and three Spaniards: James Laynez, Alonso Salmeron, and Nicolas Bobadilla remained loyal because of his example of exterior mortifications, fasting, studies, spiritual exercises, and being alms funded; plus, his great desire to lead a life that was as close to the life of Christ as possible. They took the vows of poverty and chastity while waiting for the opportunity to go to Rome to put themselves at the disposal of the Pope. In the spring of 1537 during Lent, Ignatius and his group were ordained priests in Rome, but had to return to Spain without seeing the Pope.

By winter of 1537 it was time to offer their services again to the Pope. While approaching the city of Rome, Ignatius had a vision where he seemed to see the Eternal Father associating him with His Son, who spoke the words: *Ego vobis Romae propitius ero*. Ignatius thought he would call their brotherhood "The Company of Jesus", because the word Company in military terms was generally known by its captain's name. So in the Latin Bull of foundation, they were to be called "Societas Jesu" or Society of Jesus. Due to the fact that they had no superior, no rule, no tradition, and no houses for training postulants, they were practically doomed to die out after their existing members were gone. After many months of work, adding the vow of obedience and becoming a religious order, they were still denied by Cardinal Guidiccioni, the head of the commission appointed to report on their "Formula". Ignatius and his companions did not give up, but rather agreed to offer 4000 Masses to obtain the approval. After some time the Cardinal unexpectedly changed his mind, approved the "Formula" and the Bull "Regimini Militantis Ecclesiae", and issued it on September 27, 1540. Ignatius was elected the first general, in spite of his reluctance; and, on April 22, 1541, he and his group made their profession in St. Paul Outside the Walls. The society was now fully constituted.

Ignatius spent the last years of his life with the correspondence, which was inevitable in governing the Society, leaving no time for those works of active ministry he much preferred. His health also began to fail, so in 1551 he called an assembly of the elder fathers and laid his resignation of the generalate in their hands which they refused to accept. In 1554 Father Nadal was given

the powers of vicar-general, but because he was sent abroad so often, in the end Ignatius ended up doing most the work anyway.

Of all the external works of Ignatius, his correspondence indicates that he placed the building and foundation of the Roman College in 1551 and the German College in 1552 as dearest to his heart. The success of the Roman College was ensured by the generosity of St. Francis Borgia before he entered the Society; and, even though the German College was still in a struggling condition when Ignatius died, his great ideas have proved it to be the best foundation of the two.

In the summer of 1556 Ignatius was struck by Roman fever and he died on July 31, 1556. At the time of his death, in the sixteenth year of the Society, there were 1000 religious and 100 religious houses in 10 provinces. The Society of Jesus has 38 members who have been declared Blessed, and 38 members who have been canonized as saints. Ignatius was canonized by Pope Gregory XV on May 22, 1622 and his feast day is celebrated on July 31st.

(Continued from page 17) “The Conformity to God’s Will”

“God wills only our good. God loves us more than anybody else can or does love us. His will is that no one should lose his soul, that everyone should save and sanctify his soul. God has made the attainment of our happiness, His glory.”

“A practical way we should unite ourselves to God’s will is to endure the difficulties of external matters, such as great heat or cold, famine, epidemics; and, to not complain. We should want things to be just as they are, because it is God who thus disposes them. In matters that affect us personally, such as hunger, thirst, poverty, desolation, loss of reputation, etc., we should always be content, wishing only what God wills. Let us not lament if we suffer from some natural defect of body and mind, from poor memory, slowness of understanding, little ability, lameness, or general bad health. Let us thank God for what in His pure goodness He has given us; and, let us be content with the manner in which He has given it to us. We should willingly embrace suffering and unite our pain to those Our Lord suffered.”

“We should consider all events happening to us now, and which will happen to us in the future, as coming from the hands of God. Everything we do should be directed to this one end: to do the will of God, and do it solely for the reason that God wills it. Let us bend all our energies to serve God in the way He wishes, repeating the words, “Lord, what wilt thou have me do?” (Acts 9:16). “

PRO LIFE

Being Pro-Life Requires More Than Lip-Service

Life Dynamics, a national pro-life organization located in Denton, Texas, is responding to the news that leaders in our Political Parties have stripped opposition to child-killing through abortion from their party platforms. They have called for removing the “hot-button social issues” from Party statements of its principles. As one Party said, “I think it was about inclusion, not exclusion.” Then went on to say, “This is where the party is going.” They said it doesn’t make sense for the party of “personal freedom” to have the government or the political party get involved in people’s personal lives. They said, “We need to focus on issues where we can have an impact.”

Why do leaders in political parties shy away from defending the unborn child? It’s because they are motivated by money and votes, that the unborn don’t have. In addition, they always seem to get a little queasy whenever the abortion issue is mentioned. To an even casual observer, it is clear that they have about the same opinion of the pro-life movement.

The problem is, it’s all for show. If a potential foe makes even a faint reference move toward a candidate, most of them will turn and run away. Despite the warrior-like appearance, most of them are more of just a song-and-dance-man. The bottom line is that voters need to defend life! Attend caucuses and make your voices heard. Let God know that we defend the lives that He creates! If candidates can’t prove they share your Pro-Life values; they don’t deserve your support.

RIGHT TO BE BORN

Every child has the right to be born, To waken to another morn, To know our world in peace or strife, To choose his road—to have his life.

The many things he has not done, A path unwalked, a race unrun.

Waters he has yet to sail, Heroes he has yet to hail.

Let him have his right of birth.

Let him know God’s gifts on earth.

Every child has the right to be born.

To waken to another morn.

A chance to see a rising sun.

The quiet peace when day is done; The patter of the rain at night, A vigil candle, burning bright; The perfumed scent of blooming flowers, The fresh relief of summer showers.

Many joys our world can give, When not denied his chance to live.

THE OATH AGAINST MODERNISM

The current crisis in the Church was foreseen by St. Pius X. The current measures of change and novelty should now be studied in our times, as this has been the intent of those planning the destruction of the Faith.

Guiseppe Sarto, Cardinal of Venice, was elected as Pope on August 4, 1903. He chose the name of Pius X. Pius pledged his Pontificate to “restoring all things in Christ”. His predecessor, Pope Leo XIII had realized the problem facing the Church, and had issued an Encyclical on the study of Sacred Scripture entitled, *Providentissimus Deus*. This encyclical did some good, but Pius X knew greater measures needed to be executed to stop this danger to the Faith.

During his reign, Pius saw Modernism creeping into the Church, so put forth efforts to protect the Catholic Church from infidelity to tradition. He issued the *Syllabus of Errors*, *Lamentabile Sane Exitu*, on July 4, 1907. This document condemned Modernism’s main errors and listed them as 65 “Condemned Propositions”. He followed up with his encyclical *Pascendi* on December 8, 1907 exposing Modernists’ doctrines. A key element of Modernism is believing that Religion must change for the sake of changing times; and, there is always an “evolution of dogma”.

Pius stated that the “primary obligations assigned by Christ to the Office divinely committed to us was of feeding the Lord’s flock; and, that of guarding with the greatest vigilance the deposit of the Faith delivered to the saints.” He also stated of the Modernists, “There is no part of the Catholic truth which they leave untouched, none they do not strive to corrupt.”

In the encyclical, *Pascendi*, Pius explained the doctrine of Modernists and its causes, namely pride, curiosity, and ignorance. The remedies given in *Pascendi* ordered firm adherence to the philosophy and theology of St. Thomas Aquinas. Bishops were to implement the following:

- 1) All directors and professors “found in any way imbued with Modernism” were to be excluded from seminaries and universities.
- 2) All publications sold in Catholic book stores must be free from any taint of Modernism.
- 3) A “Vigilance Committee” was to be set up in each diocese composed of priests chosen by the Bishop to watch for any evidence of Modernist tendencies.

Pius X ordered strict adherence to his remedies put forth in this encyclical. Though these were forceful measures, they proved to be not enough. Thus, three years later, to combat the enemy “inside the gates”, he promulgated the *Motu Proprio Sacrocrum Antistitum* that contained the “Oath Against Modernism”.

The introduction of the *Motu Proprio*, issued on September 1, 1910 states: “We believe that no bishop is ignorant of the fact that the wily Modernists

have not abandoned their plans for disturbing the peace of the Church since they were unmasked by the encyclical *Pascendi dominici gregis*; for, they have not ceased to seek out new recruits and to gather them into a secret alliance.” He goes on to say, “It is the duty of all bishops to exert themselves in defense of the Catholic Faith; and, most diligently to see to it that the integrity of the divine deposit suffers no loss. Likewise, it is most definitely our duty to obey the commands of Christ the Savior, Who gave to Peter, whose position of authority we, though unworthy, have succeeded, the order: ‘confirm thy Brethren’.” He wanted warn us that great damage to the Faith can be done by priests in good standing, who by their preaching or teaching attempts to condone or promote Modernism and its errors. Catholics will be brain-washed into believing such teaching, if the priest in question is not corrected by the Bishop or Pope.

The conclusion of the *Motu Proprio* by St. Pius X states: “They are men whose audacity against the wisdom that has come down from Heaven increases daily. They arrogate to themselves the right to correct this revealed wisdom as if it were something corrupt, to renew it as if it were something that had become obsolete, to improve it and to adapt it to the dictates, the progress, and the comforts of the age as if it had been opposed to the good of society and not merely opposed to the levity of a few men.”

The remedies St. Pius laid forth in his orders included: all seminary teachers must present teachings to the bishop to ensure the courses contained nothing contrary to Catholic doctrine; if the courses were found tainted with modernism, the professor was to be immediately dismissed; and, that all seminary teachers must make the Tridentine Profession of Faith, take the Oath Against Modernism, and sign the Oath. This Oath was to be taken at the beginning of every academic term. The priest who takes the Oath Against Modernism swears solemnly: “I sincerely hold that the doctrine of Faith was handed down to us from the Apostles through the orthodox Fathers in exactly the same meaning and always in the same explanation. Therefore, I entirely reject the heretical misrepresentation that dogmas evolve and change from one meaning to another, different from the one which the Church held previously.” At the conclusion, he states, “I promise that I shall keep all of these articles faithfully, entirely, and sincerely; and, guard them inviolate, in no way deviating from them in teaching or in any way in word or in writing. Thus I promise, this I swear, so help me God, and these holy Gospels of God which I touch with my hand.”

Pius also went on to give directives to those entering the seminary. He stated, “Equal diligence and severity are to be used in examining and selecting candidates for Holy Orders. Far, far from the clergy be the love of novelty! God hates the proud and obstinate mind.”

During the 1940’s, “New Theology” emerged. These new theologians taught that religion must change according to the times. Pope Pius XII

denounced this New Theology, stating, “If we were to accept such an opinion, what would become of the unchangeable dogmas of the Catholic Faith; and, what would become of the unity and stability of that Faith?”

Pope John XXIII established a Central Preparatory Committee prior to the Second Vatican Council. This Committee spent two years preparing the agendas and main drafts the bishops would discuss at the Council. These drafts were in total accord with the traditional teaching of the Church. Cardinal Ottaviani of the Holy Office oversaw the documents. But immediately, after the Council opened, the liberal bishops protested against the original documents stating they had no input. The matter was put to a vote and all the documents prepared were discarded.

Today Pope John XXIII has a reputation as being one of the most liberal Popes in history; however, a careful examination shows he did not adopt the “New Theology”; and, was very critical of abortion, contraception, artificial insemination, divorce, and the ordination of homosexual seminarians. Neither John XXIII nor Paul VI wanted the almost three thousand bishops and other clerics, then in Rome for Vatican II, to address the birth control issue even though many of these bishops expressed their desire to bring this pressing issue before the Council. The disagreements ultimately led to Pope Paul VI’s encyclical “*Humanae Vitae*” on July 25, 1968.

Prior to the Council on October 30, 1959 a Message from Heaven was given through Mary Ann Van Hoof that stated, *“Just as Pope Pius XII knew he could not trust his Cardinals, and through this died of a broken heart. He knew before he died who his enemies were. He found the traitor amongst his own. It broke his heart. ...”* *“...Pope John, now his successor, is carrying his huge cross, trying to bring about the re-unification of the churches; to bring them back to the fold. He has some wonderful men at his side, but he has also traitors severing away at the threads that’ll bring the two large churches back into one. Pope John needs the prayers of all Christianity, for he has called the fold together for an Ecumenical Council.”*

Also on April 2, 1965 Heaven again spoke through Mary Ann with this Message, *“If Pope Pius XII could come back and speak, the Pope who knelt in Gethesemani in his entire Reign. He trusted and he had great faith in – just as Pope Pius X had a Judas in his office and so on down the line. It is a much greater battle for Pope Paul VI to battle. He is a good man, but he has a tremendous struggle. For the Supreme Grand Master and his Cardinals and Bishops beneath him are very alert. But, if the Christian world would awaken; and, if they would fulfill the unfinished work of the Romanoffs, they could defeat their cause. But it takes courage, true love of God and cleansing of the Vatican..”*

Then on Good Friday, April 16, 1965 Heaven again reminded us through Mary Ann with these words; *“Oh dear people, do not listen to*

rumors. His Holiness Pope Paul is a good man. The Supreme Grand master, the Black Pope, is setting up these conditions. His Cardinals and Bishops are working hard and creating this confusion. Why be so foolish?"

The "New Theology" theologians and the liberal bishops steered the Council on a new progressive path. After the completion of the Council, these same liberal theologians were the ones who took the lead in announcing the misleading results to the world. On July 21, 1967, two years after the close of the Council, Pope Paul VI was pressured to lift the requirement of the "Oath Against Modernism", making it only voluntary.

Prior to the Second Vatican Council, Msgr. Joseph Clifford Fenton also wrote an American Ecclesiastical Review article providing an English translation of the Introduction and Conclusion of Pope Pius X's Papal document. Msgr. Fenton stated in October of 1960, that this document "definitely deserves serious study by the present generation of theologians." Msgr. Fenton noted that these directives "went against the liberal Catholic spirit of which Modernism was the outstanding expression."

In review, here are a few excerpts of that Oath which state the following: "I ... firmly embrace and accept each and every definition that has been set forth and declared by the unerring teaching authority of the Church, especially those principal truths which are directly opposed to the errors of this day."

"I sincerely hold that the doctrine of faith was handed down to us from the apostles through the orthodox Fathers in exactly the same meaning and always in the same explanation. Therefore, I entirely reject the heretical misrepresentation that dogmas evolve and change from one meaning to another, different from the one which the Church held previously. I also condemn every error according to which, in place of the divine deposit which has been given to the spouse of Christ to be carefully guarded by her, there is put a philosophical figment or product of a human conscience that has gradually been developed by human effort and will continue to develop indefinitely."

"Furthermore, with due reverence, I submit and adhere with my whole heart to the condemnations, declarations, and all the precepts contained in the encyclical *Pascendi* and in the decree *Lamentabili*, especially those concerning what is known as the history of dogmas."

"Finally, I declare that I am completely opposed to the error of the Modernists who hold that there is nothing divine in sacred tradition; or what is far worse, say that there is, but in a pantheistic sense, with the result that there would remain nothing but this plain simple fact – one to be put on par with the ordinary facts of history – the fact, namely, that a group of men by their own labor, skill, and talent have continued through subsequent ages, a school begun by Christ and His apostles."

“I promise that I shall keep all these articles faithfully, entirely, and sincerely, and guard them inviolate, in no way deviating from them in teaching or in any way in word or in writing. Thus I promise, this I swear, so help me God, and these holy Gospels of God which I touch with my hand.”

On February 26, 1971 Our Holy Mother gave this Message to Mary Ann Van Hoof which emphasizes the need for priests, Bishops and religious to stand firm against modernism: *“This is a serious period. Call to Thy Lord and God. Do not forget Him. Call to Him. Pray to the Sorrowful Mother. This is a serious period. Pray! There must be unity. Remember, before you is a great fault just as deep as the fault in the ocean; and, that fault is right in the Vatican. Do you understand what I’m saying? The fault is spewing, and breathing, and bubbling; and, is very close to erupting like an earthquake. There will be an earthquake in your Church, a serious one. It will take much and destroy it. But, remember when the fault reunites and becomes solid, it will bloom forth with the Glory of Glories; and, that is what you want to stand by. Do you understand my meaning? So, have courage and stand by as true soldiers of Jesus Christ. Thy Holy Mother sheds bitter tears for Her Sons. The Representatives of Jesus Christ and the Spouses of Her Divine Son are breaking Her heart, for they have sought the worldliness. They have not continued with their vows that they professed at the time of their ordination, and their entry into the Convent. There will be very few that will stand up; the road is too glamorous on the easy way to follow. Strict rules are for the birds, they say, ‘This is the modern times, this is the modern way. We must commute with the modern ways. We must be with the modern ways. That is the only way we can reach man.’ Oh, how wrong they are. Yes, you may be modern in certain respects; but, you cannot be modern with God the Father, God the Son, and God the Holy Ghost. You cannot be modern with the Way to Calvary because that has not changed in two thousand years, or three thousand. That has not changed. It is still Calvary. The instructions Thy Lord and God gave to His Apostles are still in effect; and, the Priests that were instructed to follow the Way to Calvary, that has not changed. They want to change it, to modernize it, to make it easy for themselves; but, you cannot spit in the eye of God the Father and not have to face retaliation. You must remember that. Yes, they try to remove God the Father, God the Son, and God the Holy Spirit as just a myth; but, please Christian World, stand with the Holy Trinity. Stand with It, and you have nothing to fear. You have nothing to fear.”*

Another Message was given on June 29, 1975: *“Modernization is fine for the modern world; but, there must be Chastity, there must be Purity, there must be Penance, Reparations. They must teach the childr en the True Traditional Church and the Fundamentals.”*

Indiana: God bless you! Just writing to let you know how much we appreciate the Shrine newsletter each time we receive it, and all the information it contains... Now I have a question. Why aren't we all, and the churches too, praying for the Consecration of Russia to the Immaculate Heart of Mary as requested in 1917 at Fatima by Mary and Jesus? Our Lady of Fatima and Jesus said that is the way to World Peace. So, why aren't the Pope and Bishops getting this done? Maybe you can do an article on that sometime soon. ...I'm sending a donation. We are on a fixed income. Can't give much, but for as long as you have been so faithful to us, and sending your Newsletter, we must give back.

...Also, pray for an end to abortion and all moral issues plaguing the world today. Evil is running over everywhere. Our Constant Vigil of Prayer is each morning from 11:00 A.M. To 12:00 P.M. noon (three rosaries and other prayers). Please send 2 Unity Medals - aluminum. Thank you!

Minnesota: Many thanks for your Newsletter. Very Interesting! God bless all of you faithful followers. You know you are where you are supposed to be, with all the effort physically and spiritually you have done. It won't be long now.

Florida: My wife and I visited the Shrine twice some years ago, and were really taken by it. We hoped to get back again, but she passed away 2 years ago in August. We always enjoyed the Newsletters. God bless! Keep up the good work! I'd like to get back, but I'm going to be 90 in April, and it's a long way from Florida.

Texas: I want to let you know how much I love your Newsletter. It brings to light many things that we should know. "Thank You!" "God bless you" for all your efforts. God must be smiling on you for all the good you are doing. Enclosed is my gift for you. Continue to send me your Newsletters. "Thanks again!"
